Dear Sir / Madam

I am applying for the internship role in Software developer at your esteemed organization.

I am currently in year 2 of a Higher National Diploma in ATI Campus Anuradhapura and I'm eager to gain experience, which hopefully would help me to garner a full time position in your company in the future.

The skills I possess would make me an ideal fit for the role, as I'm meticulous with detail, have a can-do positive attitude, and fit in well in different environments.

I enjoy working as part of a team, but I am equally comfortable working on my own initiative.

My long-term career goals are to work with a company that offers challenges and develops employees, and this internship would help give me the knowledge and experience I need to achieve this.

It would welcome the opportunity to discuss my experience in more detail and, of course, hear more about your organization.

Regards

M.T.T.M.Sewwandi
